The weather has not been very cooperative so far. We had good intentions of getting an early start but as you can see it will be May before we start pulling. We will try to start at 9:00 am, on May 12th, so anyone who wants to make a few test pulls can, and then we will start the regular pull around 11:00 am.

OATA will be a two day event, with pulls on Friday evening and Saturday evening. Bring your tractors on Friday, and take part in OATA's show. The new show grounds is just north of Haskell, on Highway 72. Collinsville is still not confirmed. We also need to work things out for Skiatook. I also need to get confirmation on Catoosa. John Hoover would like to have a pull in conjunction with OATA's fall swap meet. If we have all of these pulls it will give us 10 pulls for the year and the two pulls at our fall show.

If anyone would like to have a pull, either in conjunction with their town festival or "just to have a pull", please let me know. We have lost several small town pulls in the last few years and I am always looking for new places.

And don't forget, we have updated our rules to match EDGE&TA rules. We will have a class for tractors up to 1977 model year.
