UPCOMING PULLS

I'm sorry that this is a little late. I like to get the newsletter out in the first week of a month and a couple of weeks before a pull. I am running a little late this time.

This **Saturday, August 22nd** is the Collinsville Tri-County Fair pull. The pull will start at **7:00 pm**. Please be there early and ready to pull so we can start on time. The sponsors are supplying a light plant again, like they did last year, and possibly a second one. I will also have my generator and lights to help. Hopefully the weather will be in our favor.

On **Sept. 19th, Saturday, at 11:00 am**, is the Skiatook Founder's day pull. The pull will start at 11:00 am or shortly after the parade. Jimmy Reed is setting up the pull this year. If you have questions please ask him

The Catoosa pull is coming in October and we are working on trying to set something up with P & K Equipment in Owasso. I understand there was a good turnout for their open house, in July. Several members said they are interested in sponsoring a pull for their next open house event.

Trophies

You probably noticed that we did not hand out trophies at the end of the Bixby pull like we have in the past. Courtney decided to do something a little different this year. He is having trophies made with the winner's name on the trophy. I trust Courtney will have something unique for us this year. He may have them ready by the Collinsville pull.

I have talked to the sponsors of the Collinsville pull and believe they will be passing out t-shirts for first place, rather than trophies. I don't know about the rest of you but I can always use new t-shirts.

If you know of someone wanting to sponsor a pull we could use trophies for the pulls at the Kent's shop. We will probably pull one or two more times there this year.

Safety Note

Just a reminder that EDGE & TA wants everyone to have their tractor wheels blocked while you are not on the tractor. Also we will be checking to make sure safety procedures are followed and tractors are in safe condition. Please check for gas leaks, etc. Make sure you put your tractor in neutral while being hooked and un-hooked, and both hands raised. Lets be safe and have fun.
